BEST VALUE ON THE MARKET

The Chevy Silverado and GMC Sierra are amongst KBB's top 10 best resale value list. Trucks and SUVs dominate the top of the resale value charts, and for the first time, no cars or minivans are represented in the KBB Top 10 list. While the average new vehicle will be worth about 39% of its original sticker price after 60 months, Chevy Silverados and GMC Sierras will retain over 55% of its resale value!

Vehicle	New Cost of Chassis	Year 5 (85K miles) value	Value %	KBB Consumer Review
